2. Background to the complaint investigation

2.1. For many years in South Africa dating back to the 1940s, *Cement Producers* were granted exemptions in terms of legislation then in force to conduct the manufacture and distribution of cement under the aegis of a lawful cartel. A set of institutional arrangements was put in place to manage the activities of the lawful cartel. These institutional arrangements included the *CDSA* and *SACPA*. *NPC*, *Slagment* and *Ash Resources* were jointly owned by *PPC*, *AfriSam* and *Lafarge*.

2.2. The most salient features of the lawful cartel were:

2.2.1 Agreed market shares largely based on each *Cement Producer's* original production capacity;

2.2.2 The division of South Africa into two main regions – the Northern Region and the Southern Region;

2.2.3 A centralised sales and distribution system. *Cement Producers* sold and distributed cement through the *CDSA* in the Northern Region and *Cape Sales* in the Southern Region. At the end of each accounting period there was a system of quota balancing to distribute proceeds of cement sales;

2.2.3 A unitary pricing model known as the Twycross pricing model.

In terms of this pricing model the *Lafarge* factory in Lichtenburg was used to determine a base price and actual prices to customers were derived from the base price plus the cost of rail to the customer.

2.3. The *Competition Board* withdrew the exemption in 1995. In view of the logistical difficulties associated with establishing their own sales, marketing and transport functions, the *Cement Producers* were afforded until the end of September 1996 to terminate the lawful cartel.

3. Complaint investigation and findings

3.1. On 02 June 2008, the *Commissioner*, acting in terms of section 49B(1) of the *Act*, initiated the *Complaint* against *PPC*, *Lafarge*, *AfriSam*, *NPC* and *Slagment* for alleged contravention of sections 4(1)(b)(i) and (ii), 5(1) and 8(c) of the *Act*. The allegations relating to section 8(c) of the *Act* relate to *PPC* only. The initiation of the *Complaint* was predicated on, *inter alia*, information gleaned from the *Commission's* economic research into the market structure, firm behaviour, and outcomes, including pricing, of various construction-related products, one of which was cement.

3.2. On 24 June 2009, after duly making applications to the High Court, the *Commission* executed warrants of search and seizure at the respective premises of the *Cement Producers*. Subsequent to the execution of

the warrants, on 07 August 2009 *PPC* applied for and was granted conditional immunity by the *Commission* in terms of the *CLP*.

3.3. The *Commission's* investigation indicates that:

3.3.1. Following the demise of the lawful cartel, in 1995 the *Cement Producers* reached an understanding to continue to target market shares each producer had enjoyed under the lawful cartel based on the *SACU region*. Notwithstanding the 1995 understanding, in 1996 *PPC* gained market share in excess of its agreed market share resulting in retaliation by the other *Cement Producers* which precipitated a price war among *Cement Producers* in the period between 1996 and 1998.

3.3.2. In or between 1997 and 1998 the *Cement Producers* held a series of meetings with a view to ending the price war and stabilising the market. These meetings culminated in the *Cement Producers* reaching an agreement on market shares, pricing parameters for different types of cement, scaling back on marketing and distribution activities including the closure of certain offices and depots in some regions, and not to offer special discounts on higher quality cement.

3.3.3. Representatives of *AfriSam*, *PPC* and *Lafarge* met regularly in the period between 1999 to 2002 to discuss the implementation of the agreement.

3.3.4. As part of maintaining and monitoring the targeted market shares, and thereby restraining price competition, the *Cement Producers* agreed to submit detailed cement sales data to an audit firm appointed by the C & CI. On a monthly basis, the audit firm then aggregated the sales data across the firms and disseminated the aggregated data to the *Cement Producers*. On this basis, the *Cement Producers* could measure their own market shares for the *SACU market* as a whole, as well as for defined sub-regions, product categories and customer categories, and monitor if their rivals were abiding by the arrangements.

3.3.5. The C & CI was an important mechanism in enabling *Cement Producers* to target market shares. *Cement Producers* agreed on the format of templates used for submitting monthly sales data to the C & CI. The templates are known as Schedules A – J. The *Cement Producers* initially agreed on and introduced schedules A to E. In 2002, schedules F to H were introduced and in 2006 schedule J, on sales data relating to imports of cement. In 2007 the *Cement Producers* also agreed to exchange total regional sales data on a weekly basis.

3.3.6. This information exchange ended in 2009.

3.3.7. The *Cement Producers* used sales data disseminated by the C & CI to monitor their own market shares by region, end-user and imports.

3.3.8. The *Cement Producers* also had an opportunity to meet regularly in, *inter alia*, meetings of the C & CI, CMA, and ACMP.

3.3.9. While NPC was until the early 2000s jointly owned by Lafarge, PPC and AfriSam, representatives of NPC attended the meetings referred to in 3.3.2 above, in and about 1998, and submitted data separately to the C & CI in accordance with the agreement to target market shares. NPC was, therefore, party to the anti-competitive arrangements.

4. Settlement discussions

4.1. AfriSam's senior board members contacted the Commission soon after they became aware that the Commission had initiated an investigation against AfriSam, to understand the allegations.

4.2. At the same time, AfriSam conducted a thorough internal investigation into the allegations.

4.3. AfriSam approached the Commission as soon as its internal investigation revealed that ex-employees had been involved in conduct in contravention of the Act and on 7 June 2011, the Commission and AfriSam held the first meeting, at the latter's request, to discuss the

results of *AfriSam's* internal investigation and the possibility of negotiating a consent agreement.

4.4 Pursuant to these discussions, *AfriSam* has provided the *Commission* with detailed submissions and documentation which include witness statements yielded by its internal investigation. *AfriSam's* cooperation has also extended to facilitating the *Commission's* interviews of current and former employees, conducted in terms of section 49A of *the Act*.

5.1.2. *AfriSam* admits that it entered into agreements and arrangements with *PPC and Lafarge* that extended to *NPC* by virtue of the control exercised by the three firms over *NPC*, as well as subsequent understandings with *PPC, Lafarge* and
